

Making Ideas Visible in the Classroom: Multimodal Instructional Communication with Gestures, Drawings, and Physical Models

Tuesday, May 19, 2026

At XCITE in the Rivera Library

9:30–11:00 AM

Bagels and coffee will be served!

RSVP

<https://forms.gle/Mx1GJdNdYJFAKGxx9>

Explore how teachers and students can use gestures, drawings, and physical models to support instructional communication and learning. Dr. Martha Alibali will share insights from research on embodied cognition, development, and multimodal communication. She will also describe practical ways instructors can make complex ideas visually representative in the classroom.

INNOVATIVE TEACHING WORKSHOP SERIES GUEST SPEAKER

**DR. MARTHA
WAGNER ALIBALI**

Professor of Psychology, University
of Wisconsin–Madison
